Professional Summary

I'm a full-stack web developer who's working with up-to-date and most effective technologies. I specialize in JavaScript-based frameworks and related libraries. To ensure the highest quality standards I adhere to best coding practices. Being an easy-going and friendly team player helped me successfully build great relationships with customers. I use uncommon approaches to problem-solving, thus focusing on making applications work efficiently under the hood.

Work Experience

Full-stack developer | SBS Team 06/2021 - present

- solving issues and fixing bugs;
- creating new features and building projects from scratch;
